

Plastic Surgeon

Hamilton Health Sciences is a family of three acute care sites, an outpatient cancer centre, a children's hospital and a chronic care facility, serving more than 2.3 million residents of Hamilton and central south and central west Ontario. As the second largest hospital in Ontario, Hamilton Health Sciences is the regional centre for burns, trauma, cardiac, stroke, pediatrics, digestive diseases, high-risk obstetrics, orthopedics and rehabilitation. With more than 900 beds in operation, 40,000 annual inpatient visits, 25,000 OR cases, 515,000 ambulatory care visits, and 10,000 employees, Hamilton Health Sciences offers an exciting and challenging work environment. Through our affiliation with McMaster University and partnerships with many health care providers and community agencies, Hamilton Health Sciences was named one of Canada's Top 100 Employers of 2007. For more information about Hamilton Health Sciences, visit www.hamiltonhealthsciences.ca

The Department of Surgery of McMaster University in affiliation with Hamilton Health Sciences is seeking applications from suitable candidates for the position of Plastic Surgeon at the assistant/associate/professor level. The individual must be eligible for license in the province of Ontario and have fellowship training in Pediatric surgery. Additional training in hand and microsurgery are considered assets. Prospective candidates must have experience in the full complement of plastic surgery and will share in the plastic surgery on-call schedule. The suitable candidate must be able to function independently with Hand Trauma when on call. The successful candidate will also have experience and interest in clinical research and education. The individual will be expected to initiate and participate in clinical trials and to develop educational programs relevant to post-graduate surgical training. Leadership skills and previous experience with academic plastic surgery programs is an asset.

In accordance with Canada's immigration policy, this advertisement is directed to Canadian Citizens and permanent residents of Canada. Hamilton Health Sciences is committed to employment equity and encourages applications from all qualified candidates, including women, aboriginal people, people with disabilities, and visible minorities.

Interested candidates should submit their curriculum vitae by October 30, 2009 to:

Dr. Achilleas Thoma
Division of Plastic Surgery
Department of Surgery McMaster University
101-206 James Street South
Hamilton, ON L8P 3A9
